

Messier Services Asia

Maintenance, Repair & Overhaul Centre

THE NETWORK'S ASIA PACIFIC LANDING GEAR CENTRE OF EXCELLENCE

- Specialises in the Repair & Overhaul of landing gears and associated hydro-mechanical systems
- Covers civil and regional aircraft
- 16,000 square metres facility
- 315 staff

Investments

- **Facility expansion** in 2007 to cater for the large **A330, A340** and **B777** landing gears. The expansion establishes the infrastructure for the future maintenance and overhaul of the **A380, B787** and **A350** landing gears.
- Specialised equipment such as the **Tacchi Universal Grinding Machine**, dedicated **Cadmium Plating Line** and a large **Magnetic Particle Inspection Machine**.
- Front end process area, including **Plastic media blasting** machine.
- Part of a global network backed by the SAFRAN Group, Messier Services Asia has access to an **extensive rotatable pool** and is able to offer exchanges and lease.

Capabilities include:

Airbus A340, A330, A321, A320, A319, A310, A300

Boeing B777, B767, B757, B747, B737, MD11, DC10

Fokker F100, F70, F28

British Aerospace AVRO RJ, BAe146, BAe748, ATP

DeHavilland DHC8, DHC6
